"Many people have difficulty getting in and out of their bathtubs safely. We are excited that the accessibility experts at EASE will be able to help Northern California seniors and people with mobility challenges understand our unique, elevated accessible bathtubs," says Matthew Longman, CEO of Aquassure Accessible Baths.

"Aquassure's accessible slide-in bathtubs are the perfect addition to my full line of disability products for home use. I have personal experience with the challenges of handicapped access as I have a daughter with a disability so I have a sensitive and practical approach to renovations. I ask the right questions before we start," says Steve Weaver, owner of Eagle Accessibility Solutions & Equipment.

Unlike walk-in bathtubs, Aquassure baths are fully accessible from wheelchairs, walkers and lifts and are elevated to provide a therapeutic spa experience for people of all abilities. The bather is always fully supported and cannot fall in an Aquassure bathtub. The elevated bottom eliminates having to stand, and the need for a seat. The sliding door eliminates clearance issues and the 5' bathtubs are easily installed into existing bathtub enclosures.

EASE provides a range of mobility products and accessibility renovations services. With many years of experience, EASE is ideally suited to provide the best bathing solutions for Northern California's seniors and people with mobility challenges. EASE services Northern California and Reno, NV. They are located in Auburn, California and can be reached at 1-800-EASE-650 (1-800-327-3650).
