

Ella Acrylic Transfer Wheelchair Accessible Walk In Tubs

Ella's Bubbles delivers quality engineering in style with Ella Transfer Wheelchair Accessible Walk In Tubs. Each Ella walk in tub is equipped with a beautifully crafted lightweight yet sturdy aluminum L-shaped door giving you a tub with a unique high-end look that is easily accessible with its frameless entry. A low step-in threshold, textured slip resistant floor, molded seat as well as wall and/or deck mounted grab bars work in unison to allow for easy and safe entry and exit of the tub.

Ella light-weight, yet durable aluminum L shape outward swing doors are made with a 2-latch gear and shaft lock mechanism which allows for equal pressure to the door gasket throughout its entirety and guarantees a leakproof door seal. The L shape door opening allows for toilet clearance up to 21" height and convenient transfer from the wheelchair into the seat over the soft and warm to touch acrylic shell.

The door is attached to the shell so there is no cold or sharp aluminum door frame in contact with bathers body during the transfer or slide into the bathtub. That makes this transition into the seat for bather very comfortable and pleasant.

All five Ella Transfer bathtub models are equipped with an adjustable direction foot and shin massage hydro jets. These jets are strategically positioned in the lowest possible area of the floor for bathers to enjoy the foot massage in a relaxed position. The hydro massage intensity is adjusted by dial control for to suit each bather's preference.

The best fast drain in industry – no power required! Ella gravity driven 2" dual drain technology with independently operated 2 openers, 2 overflows for fast and reliable drainage and exit out of the walk-in tub. This drain can be connected to 4 x two inch outlets vs. one 1 1/2" standard bathtub drain.

Transfer Walk In Tub

30"W x 52"L

The Ella Transfer Wheelchair Accessible Bathtub is designed for bathers who use a wheelchair or for those who simply need an easy-to-enter bathtub. With a barrier-free sidewall design, the bather can conveniently open the L-shaped aluminum door and slide into the bathtub. Strategically positioned air and hydro jets allow for a supremely relaxing experience. Two pre-installed grab bars allow for easier access and maneuverability.

Transfer60 Walk In Tub

30"W x 60"L

The longer Ella Transfer 60 Wheelchair Accessible Bathtub is a wider design for bathers who use a wheelchair or for those who simply need an easy-to-enter bathtub. With a barrier-free sidewall design, the bather can conveniently open the L-shaped aluminum door and slide into the bathtub. Strategically positioned air and hydro jets allow for a supremely relaxing experience. Two pre-installed grab bars allow for easier access and maneuverability.

Transfer32 Walk In Tub

32"W x 52"L

The Ella Transfer 32 Wheelchair Accessible Bathtub is a wider design for bathers who use a wheelchair or for those who simply need an easy-to-enter bathtub. With a barrier-free sidewall design, the bather can conveniently open the L-shaped aluminum door and slide into the bathtub. Strategically positioned air and hydro jets allow for a supremely relaxing experience. Two pre-installed grab bars allow for easier access and maneuverability.

Transfer26 Walk In Tub

26"W x 52"L

The Ella Transfer26 Wheelchair Accessible Bathtub is designed for bathers who use a wheelchair or for those who simply need an easy-to-enter tub and a smaller width to fit in smaller bathrooms. With a barrier-free sidewall design, the bather can conveniently open the L-shaped aluminum door and slide into the bathtub. Strategically positioned air and hydro jets allow for a supremely relaxing experience. Two pre-installed grab bars allow for easier access and maneuverability.

TransferXXXL Walk In Tub

36"W x 55"L

The Ella TransferXXXL Wheelchair Accessible Tub is our extra wide design for bathers who use a wheelchair or for those who simply need an easy-to-enter bathtub. With a barrier-free sidewall design, the bather can conveniently open the L-shaped aluminum door and slide into the bathtub. Strategically positioned air and hydro jets allow for a

supremely relaxing experience. Two pre-installed grab bars allow for easier access and maneuverability.
